Our Vision

Our vision is to grow into value added products to meet and exceed the expectations of all our valuable customers to whom we are committed to provide the finest possible service. Our team is full of capable and innovative people that are striving to serve the customer with the highest quality and value.

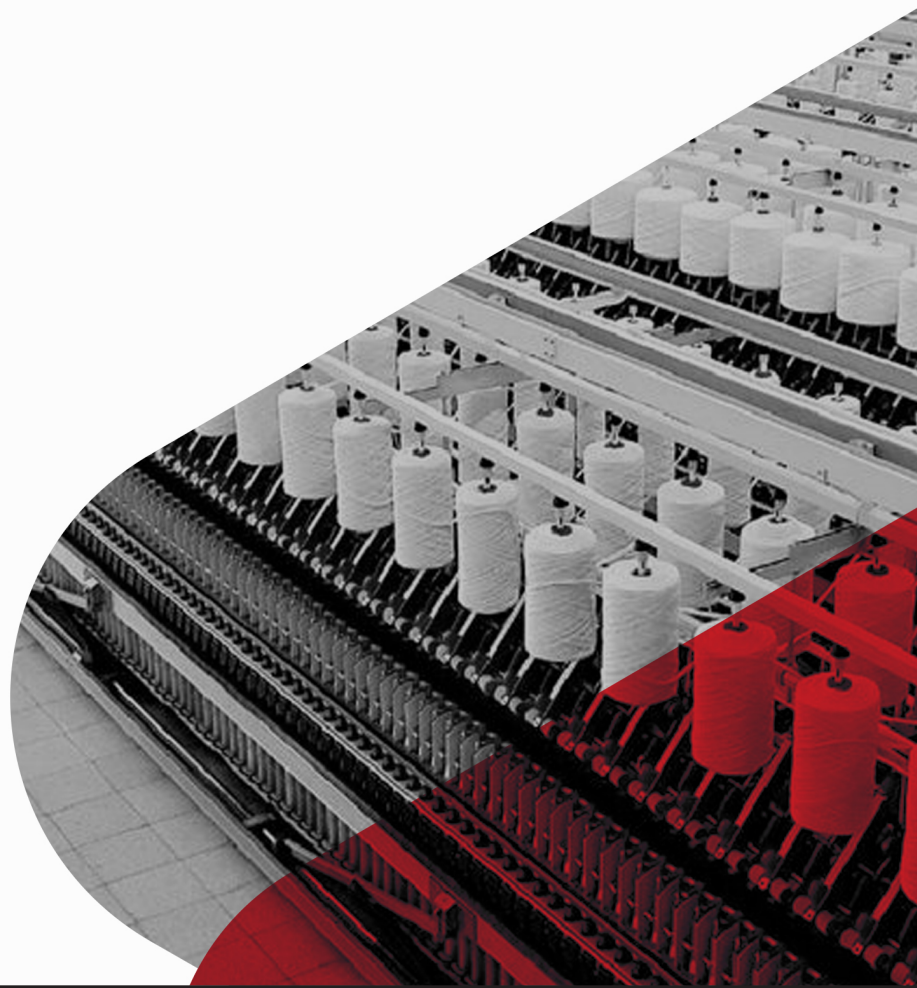

Our Mission

We consider customer satisfaction as a high priority. Maintaining the high quality standards that we have set is also essential. Our qualified professionals are very capable and help us achieve optimum results. Afzal Group wishes to continue exploring new markets and to expand its horizons. We want to improve our production processes further through rigorous R&D to perform in the most efficient and sustainable manner.

Spinning

Afzal Spinning Mills Pvt Ltd was established in 2004 and started its commercial production in July 2006. Our Spinning is located in the heart of Punjab with modern machinery to produce high end ring spun yarn. Three Flowers the brand of yarn has developed superior image in the local textile market. Afzal Spinning uses US cotton to produce count ranging from 10/s-80/s. It consists of north of 30,000 spindles with the ability to produce count with blends of Cotton, Polyester, & Viscous etc.

We are also manufacturing fabrics using modern Autocoro and MVS yarns.

Fabric Production

Afzal Group of Companies has two weaving units with an in-house sizing. We have the capacity to make over 1 million meters monthly. Our weaving units ensure quality inspection as per the AAMA 4-point system to ensure quality management. We are manufacturing fabrics up to 600 TC
